```c
#include <stdio.h>

int main()
{
    while ( ! feof(stdin) ) {
        int num;
        int nread = fscanf(stdin, "%d", &num);
        if (nread <= 0)
            break;
        fprintf(stdout, "num: %d\n", num);
    }

    return 0;
}
```
